

2+5 ... the system! Only 2 tube clamp sizes

Our 2+5 Tube-clamps system can fix all tube diameters between 6 and 42 mm with only 2 tube clamp sizes.

- Easy assembly, can be combined with all versions
- All metal parts of the standard program according to DIN 3015 can be used
- Less varieties, thus less storage cost and required space
- Only one weldplate necessary
- Only 2 cover plates necessary
- Lower screw variety
- Superposed assembly of small and large tube sizes is possible

Only one multiple weldplate with similar weldnut distances, which suits all tube clamps of size 2+5

Only one multiple weldplate with similar weldnut distances suits all tube clamps of size 2+5
